

Material Management meets SMT

22th Oktober 2025 | bertha´s place, Leinfelden-Echterdingen

What is the specialist forum Material Management meets SMT about?

The Topic

Welcome to Material Management meets SMT, the EPP Produktions & Prüftechnik specialist forum that brings together electronics and material management.

The event offers expert presentations, an accompanying partner exhibition and, of course, time for networking..

Attendees will learn everything they need to know about the latest technology trends for materials management in electronics:

- Holistic material management - not only forward-looking, but also efficient and sustainable
- Reliable, networked material availability on the SMT shop floor - the right material in the right place at the right time
- Fully automated and transparent material management for an intelligent factory

Target group: Owners, managing directors, technical managers of small and medium-sized industrial companies, Production management/production management, factory and production planners of larger companies

Demonstrate your presence in a centrally important market and participate as a Partner.
