

Expert Forum Conformal Coating

**Coating Processes
for high-quality Electronics**

11. March 2027

Rehm Thermal Systems GmbH

Blaubeuren, Germany

Event Concept

Coating Processes for high-quality Electronics

The Forum is jointly organised by **EPP**, the leading media brand for Electronics Manufacturing, and **Rehm Thermal Systems GmbH**, a global leader in complete solutions for SMT Manufacturing.

The Event is dedicated to the topic of **Conformal Coating** – the protective coating of Electronic Assemblies after soldering. It demonstrates how Circuit Boards can be protected from Moisture, Corrosion, Chemicals, Dust and Vibrations and thus maintain their functionality in the long-term. The topic is particularly relevant for applications within the Automotive Industry, Aviation and Medical Technology sectors.

Participants will receive information concerning **Selective Coating Processes, Paint Application, Drying Processes** and the integration of **Coating Solutions into Production**.

The Event offers Partners the opportunity to present their **solutions for precise, process-reliable and flexible Protective Coatings within the Environment of sophisticated Electronics Production**.

The Event provides answers to current pressing Questions, including:

- How can Electronic Assemblies be reliably protected from Moisture, Corrosion, Chemicals, Dust and Vibrations?
- How can Protective Varnish be applied selectively and precisely?
- How can Coating and Drying Processes be safely and flexibly integrated into Production?

Together for Success

From Industry to Industry

- We anticipate 50+ Visitors.
- Each Partner invites their Customers (according to the Target Group) to the Event and their Presentation.
- The Presentations will focus entirely on the Event's core theme: **Conformal Coating**. Please, no general presentation of your Product Range.
- We utilise Visitor and Exhibitor Surveys to ensure the quality of the Event and are constantly striving to improve. Experience has taught us that Visitors tend to rate pure Company Presentations or Advertising Lectures less positively, whilst Targeted Solutions and Strategies are rated very highly.
- The Exhibition Area is located close to the Presentations in order to facilitate direct networking between Partners and Participants.
- Extensive Reporting prior, during and after the Event ensures the high-profile presence of participating Partners, both in Print Media and Online. The Partners' Advertorials can be accessed at any time, thanks to online archiving.

Target Group: The Forum is aimed at Companies (OEM) and Manufacturing Service Providers (EMS) related to the Coating, Drying and Production of Electronic Assemblies. The focus is particularly on Applications within the Automotive Industry, Aviation and Medical Technology sectors.

Event language: German. Simultaneous translation from or into English can be provided on request.

Date

11. March 2027

Location

Rehm Thermal Systems GmbH,

Leinenstraße 7,
89143 Blaubeuren, Germany

Why you should book a Lecture Slot?

Communicate specialist knowledge and generate Leads

Well-known Technology Leaders present their new developments.

Visitors can attend the Lectures and the accompanying Exhibition.

Personal Contact

Present your latest Products during personal exchanges with potential new customers and existing customers (Lead Generation).

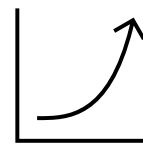

Positive Reputation

By participating in the Conformal Coating Expert Forum, you position yourself as an innovative and sustainable Partner.

Exhibition Space

Lecture Event with accompanying Exhibition combines the advantages of a Trade Fair with those of a Congress.

Wide Reach

Benefit from extensive communication measures with which you can reach Konradin Industrie's proprietary networks.

Reporting and Leads

As a participating Partner, you will receive the list of all Registrations. GDPR Compliant.

Additional components...

... ensure even more intensive Exchange

Additional attractive components make the Conformal Coating Expert Forum even more interesting and valuable for you as a Partner.

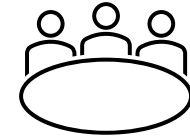

Our **Deep-Dive Workshops** and **Live Demos on the Machines** bring Providers and Users together. Discuss current challenges and problems together with the Trade Visitors, in a dynamic and engaging B2B environment.

We are also committed to interacting extensively with Trade Visitors. An intensive exchange is possible through **Surveys** and various other participation activities, providing unique insights and memorable experiences.

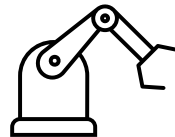

Attractive Keynote

Provides insights into current Trends in Research and offers an ideal transition to the solution-oriented Partner Presentations.

Workshops

Offer the opportunity to delve deeper into the Topic of the Lecture, in a practical manner and within small groups.

Live Demos

Directly on the Machines from Rehm Thermal Systems.

Interaction

Trade Visitors are encouraged to actively participate in hands-on activities.

What does a Booking include?

Services : Partner Packages

Booking Deadline:
9. October 2026

Services

Event Organisation

including Project and Visitor Management as well as moderation of the final Event.

Preliminary Event Meeting with all Partners via Microsoft Teams.

Attractive Event Promotion and Editorial Reporting

in Print, Online, Newsletter and Social Media including Partner Logo placement.

Exhibition Area (2m x 2m).

Lecture per Partner including Questions and Answers
(20 minutes).

Forwarding of GDPR-compliant Leads for individual processing after the Event.

Leads-on-Demand

(on Lecture PDF, up to 3 Months after the Event).

2 Employee Tickets including Speaker

The Employee Quota also applies to Sales and Distribution Partners.

Free Visitor Tickets for your Customers in an unlimited quantity

(each Registration with Partner Promo Code will be credited with 60 Euros for additional Advertising measures).

Online Advertorial on EPP Website.

Get together on the Evening prior to the Event.

Blacklist Visitors.

Package Price (plus VAT)

EUR 4,500.-

Do you still have Questions?

Regardless of whether it is classic Print Media or comprehensive Online marketing solutions — we will work together with you to develop bespoke measures tailored to your precise communication goals.

We would also be happy to advise you in a personal conversation.

We look forward to your inquiry!
