21.12.2026

Quality Assurance 4.0: Using AI, Software, and Data to Improve Processes

How are AI, software, and management systems changing quality assurance? This web session provides practical insights into how companies can streamline their processes, make more targeted use of data, and ensure quality in the long term. A powerful platform for providers of forward-looking solutions.

Target Group

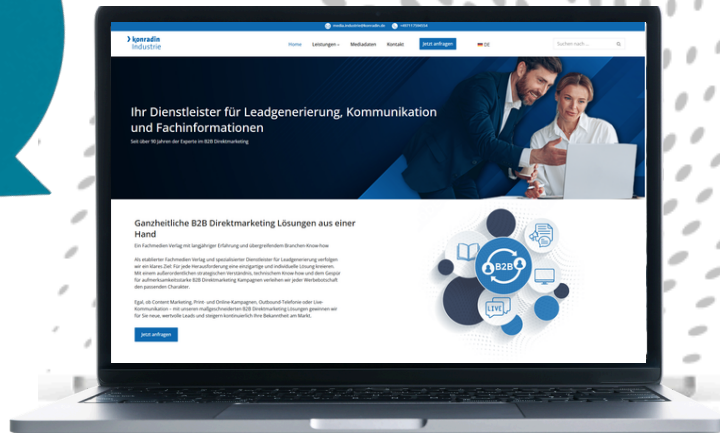

Decision-makers and specialists in quality assurance, quality management, and manufacturing metrology at industrial companies across all industries who are involved in investment decisions.

YOUR BENEFITS

Qualified Lead Generation

You will receive the contact details of the participants who have registered for the Web Session, as well as a detailed report. This enables you to identify potential new customers in a targeted and efficient manner.

Maximum Visibility

By promoting your content before, during and after the Web Session, you can boost your presence within the Konradin Industrie network and benefit from additional attention for your topics.

Wide Reach

Reach your target group across Germany and beyond. Benefit from Konradin Industrie's reach and established network.

Lasting Impact

We take care of the technical aspects and project management. The on-demand webcast ensures additional reach and further leads even after the live event has ended.

Services and Price (Lead time: at least 6 weeks)

- Presentation per partner, including a Q&A-session (20 minutes)
- Introduction to the Topic and the Speaker by the Editorial Team
- Organisation and delivery of the Web Session, including promotion and recruitment of Participants
- GDPR-compliant leads from Registrations following the Web Session
