

Technology Forum Green Innovation

15th May 2025 | DECHEMA-Haus, Frankfurt

In Cooperation with  DECHEMA

What is the Green Innovation Technology Forum about?

The Event at a Glance

The EU has set itself the goal of becoming **Climate-Neutral** by 2050. This will only be achievable if the Industrial Sector manages to save immense quantities of Raw Materials and CO2 by this deadline, a mammoth task for the energy-intensive Chemical and Pharmaceutical Industry.

The **cav Green Innovation Technology Forum** explores this vital topic and presents Technologies, Processes and Components that can help to reduce Carbon Dioxide Emissions or bind the Climate-damaging Gas, keep Raw Materials within the Cycle and mitigate the Environmental burden.

The **Target Group** includes all decision-makers within the Chemical and Pharmaceutical Industry, Plant Engineers, Developers, Plant Planners and Maintenance Staff alongside Sustainability Managers. In addition to Designers, Project and Product Managers in the associated Mechanical and Plant Engineering Sectors.

You are the ideal Partner if you offer Solutions and Concepts that will help the Target Group to realise the path towards Climate Neutrality, efficiently and smartly.

In Cooperation with  **DECHEMA**

Framework

Deadline

15th May 2025

Location

DECHEMA-Haus, Frankfurt

Top-Class Lecture Programme

Keynotes and professional Lectures

Accompanying Exhibition

The accompanying Exhibition

Lecture Event and accompanying Exhibition

Visitors inform themselves at the Lectures, seek personal conversation within the accompanying Exhibition and pose detailed questions regarding their own Projects.

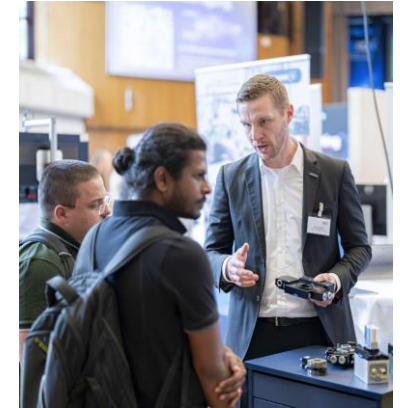

Each **Partner** will receive an Exhibition Space for Roll-ups, Company Presentations or Exhibits.
Stand Area: 2.0 x 2.0 m (Width x Depth)

The Stand Area includes:

- Power Connection
- WLAN
- Bar Table inc. Cover
- Bar Stool

The **accompanying Exhibition** offers the ideal starting point for **Discussions** and also promotes **Networking** amongst Visitors, all within a targeted professional environment.

Why become a Partner?

Imparting Expertise to the Process Technology Industry and generating qualified Leads

Well-known Technology Leaders exclusively present their new developments.

The Visitors will discover more from the Lectures and the accompanying Exhibition.

Personal Contact

Present your Innovations during a personal exchange with potential New Customers as well as existing Customers (Lead Generation).

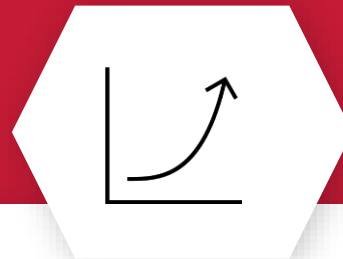

Positive Reputation

By participating in the cav Technology Forum you position yourself as an Innovative and Sustainable Partner, benefitting from the associated Brand Enhancement.

Exhibition Space

Lecture Event with accompanying Exhibition combines all the advantages of a Trade Fair with those of a Conference.

Expansive Reach

Profit from the extensive communication measures uniquely afforded with the unparalleled reach of the Konradin Industrie Network.

Reporting and Leads

As a Partner, you will receive the list of all Registrations. In full compliance with GDPR.
