

Guidelines for cover picture and -feature 2025 (valid as of October 01, 2024)

Agreement:

To ensure exclusivity, cover picture and features should not be used at the same time or for an agreed period thereafter in a competitor's magazine, or as part of your marketing communication (advertisements, flyers, etc.)

Picture:

Technical details and product shots should support the subject of the cover story and encourage the reader to read further. No logo or strap line in prominent location

Text statement:

The cover feature is intended to provide practical, solution-oriented technical information written understandable and user-oriented. It indicates possibilities and application areas and is technically detailed. The reader should get solid assistance and tips enabling, for example, corporate process to become faster, better, more flexible and/or less expensive. The cover story is edited by the editors and content adapted to the interests of the reader audience.

Technical details:

Picture size: 300dpi resolution at max. width of 330mm; CMYK-color space
